PROFESSIONAL SUMMARY

BCA graduate with hands-on experience in full-stack web development and modern JavaScript technologies. Skilled in building responsive web applications, REST APIs, authentication, and real-time features with a focus on practical and maintainable solutions.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C, R

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Authentication & APIs: Better Auth, JWT, REST APIs

Tools & Technologies: Git, GitHub, Prisma ORM, Socket.io, Inngeist, Cloudinary

Concepts: Data Structures, Authentication, Role-Based Access Control, Real-Time Communication, Problem Solving

EXPERIENCE

Ethnotech Academy — Python Full-Stack Development Intern

23 Feb 2026 – 13 Mar 2026

- Completed a hands-on internship in Python Full-Stack Development at Ethnotech Academy through project-based learning.
- Gained practical experience in full-stack web application development, backend concepts, and software development workflows using Python.
- Strengthened problem-solving, technical communication, and application development skills through practical assignments and projects.

PROJECTS

SP-Traders — LDO Ordering Platform

[\[Live Demo\]](#)

- Developed a full-stack LDO ordering platform that enables customers to place orders with delivery details and monitor order status through a responsive web interface.
- Built an admin dashboard for managing customers, orders, and order status updates with role-based authentication using Better Auth.
- Integrated Gmail notifications with Inngeist-powered asynchronous workflows to automate important order updates and streamline business operations.

FixBuddy — Professional Service Marketplace

[\[Live Demo\]](#)

- Developed a MERN stack service marketplace connecting users with nearby local professionals and enabling them to create, track, and manage service requests.
- Implemented real-time location tracking and chat using Socket.IO, enabling communication and live updates between users and professionals during active service requests.
- Built backend services using Express.js, MongoDB, Prisma ORM, and Socket.IO, with administrative controls for managing users, professionals, and service requests.

EDUCATION

MIT Degree College, Mysore

2022 – 2026

Bachelor of Computer Applications (BCA)

CGPA: 8.86/10

Pre-University Course (PCMB)

2020 – 2022

Percentage: 72%

Relevant Coursework: Data Structures, Database Management Systems, Object-Oriented Programming, Computer Networks, Operating Systems, Software Engineering

CERTIFICATIONS & INTERNSHIP CREDENTIAL

- Introduction to Front-End Development** — Meta, Coursera August 2026
[View Certificate](#)
- Introduction to Next.js** — Coursera August 2026
[View Certificate](#)
- Python Full-Stack Development Internship Certificate** — Ethnotech Academy 23 Feb 2026 – 13 Mar 2026
